

The Open Platform Company

Darim Vision and Milestone Systems Announce Partnership

As an authorized Manufacturer Alliance Partner, integration of the Darim PVE400 with Milestone XProtect™ open platform IP video management software provides unique wearable surveillance capabilities.

Livermore, CA. September 8, 2009 – Darim Vision has teamed with Milestone Systems to integrate the Darim PVE400 Ruggedized Wearable IP camera series with the Milestone XProtect open platform IP video surveillance management software. PVE400, a unique situational awareness surveillance tool, is now supported by Milestone XProtect Basis+, Professional and Enterprise products. This integration brings powerful P.O.V. (point-of-view) visual, audio and management to the demanding Military, Law Enforcement, First Responders, Tactical Operations and Harsh Environment surveillance communities.

Users of the PVE400 can now utilize the robust and intuitive Milestone graphical user interface to control multiple cameras and take advantage of the high degree of operational as well as functional flexibility. On the camera side, the PVE400 is a unique portable / wearable video encoder and streamer which can withstand harsh operating environments (IP-65 rated). Users can easily connect a Bullet-Cam, Flir Thermal Imaging Camera, or any composite video source for real-time A/V compression and network streaming. Supported network streaming protocols include - 10/100 Ethernet, 802.11b/g and wireless MESH. The PVE400 also sports internal Flash Memory for local 'black-box' storage and a GPS module with Google Earth integration allowing a command center to view, control and track multiple PVE400's from a network connected Computer or Mobile Phone.

"Milestone is a proven market leader for IP video surveillance management software. As a supplier of a unique yet powerful situational awareness visual tool, which has quietly been enabling tactical operations and industrial inspection within harsh environments, we are pleased to cooperate with a company that has such excellent market acceptance and reputation. This integration will mark the beginning of a new era of dynamic video surveillance which will expand the imaginations of everyone within this rapidly evolving industry", states Aaron Taylor, Director of Sales and Marketing, Darim Vision.

"The Milestone open platform supports over 700 cameras in all shapes and forms, but we believe that Darim's wearable cameras are a very strong addition for the marketplace. They are unique for their portability and will be of particular interest for such demanding customers as the military, law enforcement and other first responders," says Henrik Friberg, Co-Founder and VP Strategic Alliances, Milestone Systems.

Darim and Milestone will be demonstrating the PVE400 and XProtect at **ASIS2009** from 9.21-9.24

Booth 4219:4445 www.asisonline.org/

About Milestone

Founded in 1998, Milestone Systems is the leading global developer of open platform IP video management software. XProtect™ gives users a powerful surveillance solution that is easy to manage, reliable and proven in more than 45,000 customer installations. With support for the industry's widest choice in network hardware and integration with other systems, XProtect provides best-of-breed solutions to "video enable" organizations - reducing costs, optimizing processes, protecting people and assets. With headquarters in Denmark and ten international offices, Milestone software is sold through authorized partners in 100 countries. For more information and a free 1-camera license of the software, go to www.milestonesys.com.
